

**SUBCHAPTER III: BIRON SEWER UTILITY**

**13.21 INTRODUCTION AND GENERAL PROVISIONS.** This chapter regulates the use of public and private sewers and drains, discharge of septage into the public sewerage system, and the discharge of waters and wastes into the public sewerage systems within the Village. It provides for and explains the method used for levying and collecting wastewater treatment service charges, sets uniform requirements for discharges into the wastewater collection and treatment system and enables the Village to comply with administrative provisions and other discharge criteria which are required or authorized by the State or Federal law. Its intent is to derive the maximum public benefit by regulating the characteristics of wastewater discharged into the Village sewerage system. This subchapter provides a means for determining wastewater and septage volumes, constituents and characteristics, the setting of charges and fees, and the issuing of permits to certain users. Revenues derived from the application of this subchapter shall be used to defray the costs of operating and maintaining adequate wastewater collection and treatment system and to provide sufficient funds for capital outlay, debt service costs and capital improvements. The charges and fees herein have been established pursuant to requirements of the Wisconsin Statutes. This subchapter shall supersede any previous ordinances, rules or regulations and shall repeal all parts thereof that may be inconsistent with this subchapter. If there is any conflict between this subchapter and any applicable State Statute, the Statute shall be controlling.
