

14.10 RESIDENTIAL GARAGES. Residential attached garages shall be built in accordance with the general construction standards established in the Wisconsin Uniform Dwelling Code. Residential garages shall be located in accordance with ch. 17 of this Code and not less than 10 feet from any other building on the same premises when not a part of the building. Whenever a garage is constructed as part of any building, the ceiling and the walls or wall separating the garage from other portions of the building shall be of not less than one-hour fire-resistive construction as specified in Wis. Adm. Code COMM 21.08.
