

Due to a water system pressure lost on 12/5/2016.
The village of Biron is issuing a water boil notice.

NOTICE TO BOIL WATER:

Until Further Notice, customers of the Biron Water System are advised to boil all water used for drinking, cooking, or washing eating utensils. A malfunction at the treatment plant in conjunction with tower maintenance caused a loss of pressure in the distribution system and the boil water notice is a precautionary measure to be taken until samples can confirm the water is again safe to use.

All water used for human consumption taken from the Biron Water System should be boiled at a rolling boil for at least one minute before use.

Ice and any beverages prepared without boiled water since the pressure loss should be discarded.

This "BOIL WATER NOTICE" is in effect until further notice. If you have any questions please contact Bill Vruwink, Village of Biron at (715) 323-2001.
